

Page Steady capability statement

Storm Digital LLC dba Page Steady · Est. 2023

Company overview

Page Steady builds, hosts and maintains websites for public agencies and businesses. One accountable contact, from the first call through launch and every update after it. U.S.-based, serving agencies nationwide.

Core capabilities

- **Website redesign and build:** fast, mobile-first sites for residents, covering meeting agendas, public notices and department pages.
- **Accessibility:** remediation and testing, using WCAG 2.2 AA as the reference standard. That standard includes the WCAG 2.1 AA criteria the ADA Title II rule requires.
- **Hosting and maintenance:** Cloudflare's global network, automatic TLS, weekly dependency audits, and content edits on request.
- **Search visibility:** technical SEO and local search, so residents find the right page.
- **Digital outreach:** Google and Meta campaigns for public announcements, tourism and events.

Differentiators

- One accountable contact, from the first call through launch and every update after it.
- A fixed-price build and a predictable annual plan, invoiced once per fiscal year.
- The agency owns its content, data and domain, and gets a perpetual license to its site's source code.
- Fixes to our shared platform reach every site we manage.
- Results are measured and dated, never estimated.

Past performance (commercial)

- Buller Automotive: a repair group with five shops in North Dakota, Montana and Minnesota. We rebuilt the main site with a page for each shop, plus three franchise-brand sites. Results: 600+ calls and form leads in six months; Lighthouse accessibility 100 and desktop performance 93 (PageSpeed, October 4, 2026).
- SP&E Inc.: a builder of athletic facilities and school spaces. We replaced their Wix site with a custom build. Desktop performance went from 82 to 99, mobile from 70 to 89.
- Frosty's Dyno Tuning: a Harley dyno tuning shop in Sandusky, Ohio. We rebuilt the site with a page for each service and request forms. Results: 80+ leads through the website form in the first six months; mobile performance 98, SEO 100, Best Practices 100 (PageSpeed, October 4, 2026).
